

"KARMA VIGYAN"

Science of Karma

This 100 page pictorial book authored by the renowned saint of Sthanakwasi sect, the great annotator Dr. Shri Padamchandji m.s. contains 28 chapters, each chapter containing vivid details of the principles of karma.

Although many books have been written about 'Karma' by many other writers, this particular book is exclusive in the sense that it starts with comparison between the Jain principles of karma and modern science. The various aspects of the karma tree beginning with the root (sowing of the seed), watering of the seed and ending with the final result (fruit) on the front cover of the book is self explanatory.

The unquestionable acceptance of 'Atma'(soul) is the foundation and the nature of 'Karma' is explained beautifully. The basic point, that the doer and sufferer of the karma is none else but the soul, is stressed to the core..

How the karma binds With the soul, How to get the soul delinked from karma, What are the different types of karma, What is the reason of the differentiation of souls in this world, What are the various sub-sects of the 8 Karmas - all these and many more questions are answered emphatically in the book. The illustrations and stories related to different karmas is exemplified in such a manner that the reader understands it very-very easily

The contents and materials of the book stand apart. All in all, it falls in the category of 'Must Read' book.
